

Whitney Bryan

Your Favorite Detroit Reporter

www.mywhitneyb.com

Foster care, almost dying twice, being ridiculed for being poor, and being dark-skinned caused lots of insecurities for Whitney Bryan. Spending most of her time alone, she learned to let it all out through the pen. Today she is more inspired by her life and all of the things she's overcame, and want to help young women all around America through her story. Whitney Bryan is an inspiring journalist with a promising future and a heart of gold.

MyWhitneyB.com was created in August of 2016 to raise awareness on events and also issues going on in the city of Detroit. The goal is to report about things that we aren't reading or seeing in our local news. Publicity in Detroit isn't always the best and I would like to highlight the city in a different way, showing how we are all working together to help one another. As well as highlight people that are making a difference.
